FBT Architects – Project Architects/Project Managers

Firm: FBT Architects

Position: Project Architects/Project Managers, fulltime

Compensation: Depending on experience

FBT Architects is seeking talented Project Architects/Project Managers to join our team in Albuquerque, New Mexico. We offer an excellent opportunity to work in a fast-paced collaborative studio environment with a variety of project types including Healthcare, Education, Civic, Mixed-Use, Hospitality and Commercial.

Strong knowledge of construction is desired. Candidates must be qualified to lead the design, documentation and construction administration phase managing projects of varying size and complexity. Individuals must be able to efficiently transition between design, production, and construction phases.

Desired Qualifications:

- ✓ 5-year Professional or Master's Degree in Architecture (preferred)
- ✓ 5-10 years of proven experience in project management, design & construction document preparation, and construction administration including site observation
- ✓ Skilled in client communications, graphic presentations, contract documentation, project scheduling, and technical detailing
- ✓ Proficient in Revit, Autocad, Bluebeam, Microsoft Office Suite and graphic rendering programs
- ✓ Architectural licensure a plus

Responsibilities:

- ✓ Work with Design Principal and Project Team for execution of design intent
- ✓ Prepare and manage project work plans & project financials
- ✓ Deliver complete, accurate and high-quality Design Development & Construction Documents
- ✓ Oversee coordination of consulting engineers

Salary commensurate with experience. We offer excellent benefits including health insurance, retirement, PTO, etc.
